Blueprint for Success

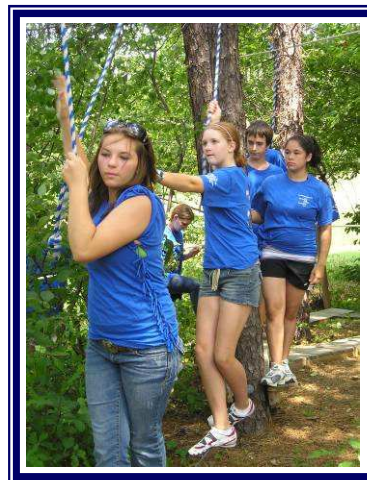

PICCC's Blueprint for Success Program is a short-term, high impact summer youth career development program for youth ages 14 to 17. PICCC staff partners with area businesses to offer this exciting career exploration program.

By participating in hands-on activities and exploring the world of work, the participants are encouraged to link their academic coursework to workplace requirements, learn the necessity of being a lifelong learner, a critical thinker, a team player, and an effective communicator. Participants can then realize the need for specific knowledge and skills when making career choices and plans.

Blueprint for Success students participate in a variety of exciting, fun, and valuable career exploration activities. Some of these are: Job Searching Skills; Career Assessments; Team Building; and Tours of High Growth Business and Industry right here in Centre County!
